EDUCATION

Seneca Polytechnic

Honours Bachelor of Technology, Software Development (Pursuing CPA Prerequisites)

Toronto, ON

Expected Aug. 2026

EXPERIENCE

Seneca INNWIL VYBE Platform

Systems & Data Analyst (Academic WIL)

Toronto, ON

Feb. 2026 – Apr. 2026

- Compiled and analyzed operational data for local SMEs using Python, preparing detailed technical documentation to ensure system compliance and data integrity.
- Gathered system evidence and audit logs to support technology assessments, collaborating with stakeholders to ensure data pipelines met internal governance standards.
- Communicated progress updates and workflow issues during client engagements, driving the adoption of digital tools to improve client operational efficiency.
- **Core Focus:** *Data Analysis, Evidence Gathering, Compliance Documentation, Client Service*

Project Human City

Data & Systems Intern

Toronto, ON

May 2025 – Jul. 2025

- Validated complex data exchanges and maintained accurate documentation for digital applications, ensuring high-quality evidence collection for system performance evaluations.
- Executed rigorous data integrity checks using advanced testing frameworks, analyzing discrepancies and reporting findings directly to cross-functional management.
- Participated in strategic planning sessions, demonstrating strong problem-solving skills to optimize internal digital tools and improve overall service delivery workflows.
- **Core Focus:** *Data Validation, Analytical Problem Solving, Digital Tool Optimization*

Three Of Cups

Technical Consultant (Freelance)

Toronto, ON

Feb. 2024 – Apr. 2024

- Built positive working relationships with B2B clients, analyzing their business processes to identify and recommend innovative digital infrastructure improvements.
- Designed secure data environments using SQL to process sensitive client information, ensuring strict adherence to data privacy and governance standards.
- Delivered high-quality custom systems on time, effectively communicating technical progress to non-technical stakeholders to ensure complete client satisfaction.
- **Core Focus:** *Stakeholder Communication, SQL Data Governance, Business Development*

PROJECTS

BetterMind Data Privacy Platform | *SQL (PostgreSQL), Data Architecture, API Compliance*

2025

- Designed a secure data architecture using PostgreSQL to manage sensitive user records, implementing strict access controls to maintain data privacy and compliance.
- Analyzed and validated third-party API data flows, creating robust documentation to track system states and ensure transparent audit trails for all transactions.

VertexFlow Transaction Processing | *Data Ingestion, Analytical Tracking, SQL*

2026

- Engineered a robust database architecture to process complex, multi-tenant transactions without data corruption, guaranteeing high fidelity for end-user records.
- Developed internal digital tools to monitor data ingestion, providing clear, analytical progress tracking dashboards for administrative oversight.

TECHNICAL & ANALYTICAL SKILLS

Core Competencies: Data Analysis, Evidence Gathering, Compliance & Audit Trails, Working Papers, Client Service

Digital Tools & Data: Advanced Excel, SQL (PostgreSQL), Python, Data Visualization, System Automation

Business Acumen: Problem Solving, Stakeholder Communication, Process Optimization, Cross-Functional Teamwork
